

NERI

“Make available our know-how and culture, by working with draughtsmen, architects and lighting designers to create unique architectural lighting and urban decoration projects worldwide, that will stand the test of time.”

**Company**

Since 1962, Neri has been a symbol of excellence in high-end outdoor furniture and lighting systems in Italy and worldwide. Over half of the Italian municipalities, and hundreds of international designers are already familiar with the Neri brand hallmark, whose constant message has always been, and continues to be, stylistic innovation and technological research, in keeping with eco-friendliness and human sustainability. In 2012, Neri North America was established to propagate and support these philosophies throughout the Americas.

**Product line**

Neri offers a vast range of products designed to improve and enhance our surroundings: lighting, street furniture and structures; all available in two lines that characterize the full range of Neri's products. The first result of collaboration with prestigious designers is the Contemporary line; the second, which makes use of the experience and classical tradition of our town and city centres, is the Heritage line. As well as the collection in our catalogues, company know-how and experience allows Neri to offer architects and lighting designers a customized design service and services dedicated to the restoration and reproduction of the historical items that have been enhancing our cities forever.

**R&D laboratories**

Efficiency, thermal management, glare, study of optics, material selection, lighting quality and connectivity. For Neri, Research and Development means working with determination and consistency around these issues which are crucial for lighting, product development and the sustainability of products. Stressful environments for points and surface finishes is simulated by salt spray fog and by cyclic UV-A and humidity. This accelerates the aging process giving forecast on what will happen. But company knowhow, gained over the years, also comes from the technological developments achieved in our laboratories. A distinctive heritage and wealth of experience means that Neri has also been awarded the best quality certifications, including the recent UL certification of our laboratories allowing rapid deployment of standards approved solution worldwide.
