

Neri SpA takes part to Light + Building 2016 in Frankfurt for the 9th time

14 December 2015 / Longiano, Italy – After the big trade fairs and in the United States, Expo 2015 in Milan and the very successful PLDC in Rome, Neri is looking forward to the biggest event of 2016: the Light + Building in Frankfurt.

‘Light + Building’ is the most important trade fair in the world for lighting and building technology. Every two years it is the place where innovations in lighting, electronics, home and building automation and software for construction are being launched. Neri will participate this year for the 9th time.

“For us, the 2016’s Light + Building will be the the perfect platform for presenting the latest lighting fixtures developed and installed in the past two years” explains the CEO Isacco Neri, “and to launch some very innovative new products we are working on at the moment as well as introducing the new catalogues.”

As a leading provider of professional outdoor lighting systems and street furniture, the Italian company will take to Frankfurt their energy-efficient LED products in a revolutionary stand (Hall 5.0 Stand A40) that will take the visitors on a journey through their expertise, craftsmanship, history and – of course – innovation.

Neri SpA - Hall 5.0 Stand A40

Since 1962, Neri has been a symbol of excellence in high-end outdoor furniture and lighting systems in Italy and worldwide. Neri is the lighting standard in most of the Italian municipalities and many prestigious mixed-use, hospitality, residential, and retail developments worldwide. The Neri message has always been and continues to be about innovation and technological research, in keeping with the same passion and craftsmanship that characterised their origins.

Founded by Domenico Neri, artist, sculptor, and attentive observer and interpreter of the aesthetic and functional demands of cities, Neri promotes decor and performance through its product range. Restoration activities, reproductions, bespoke products as well as partnerships with architects, lighting designers and energy managers are part of the offering of a company with a presence in over 100 countries.
